I've worked often through the years with [REDACTED] and [REDACTED] different co-workers here in Idaho. [REDACTED] has been a great resource and we've had some nice successes holding some accountable. The Idaho USAO and the ENRD folks have been great, too.

Years back we did an inspection related to hazardous airborne lead exposures for a small local railroad. We shared our information and data with [REDACTED] (and I think [REDACTED] **Ex. 6 PP / Ex. 7(C)** at the time).

I believe they were able to use a novel approach to address it under the Clean Air Act with charges against the foreman. [REDACTED] **Ex. 6 PP / Ex. 7(C)** could certainly fill in the blanks better.

Ex. 7(E)

All of this information is second hand. If you are interested in more information, please reach out to the Area Director in Seattle, Blake Skogland (cc'd) at [REDACTED] **Ex. 6 PP / Ex. 7(C)**

Ex. 7(E)

I'm happy to chat with you as well. Let me know if there is anything else I can do to help.

Best,
Dave

Do you have a counterpart over there that might be interested with a supportive USAO? No pressure if it isn't the right thing at the right time.

Cheers,
Dave
